While the Germans have come to agree with all the other views of the American commissioners, they are rejuctant to accept this condition and point to the fact that Malietoa was pardoned by the German Emperor at the beginning of the Conference. This they claim should satisty America. It is thought the crisis will be reached at the meeting of the conference to day. The American commissioners last night were quiet and conciliatory in their utterances concerning the situation, but expressed a determination to remain firm.

This action was taken finally after prolonged and persistent efforts on the part of the American commissioners; but now comes another hitch in the negotiations. This fresh difficulty grows out of the claim for indemnity made by Germany. The American section of the Charleston Presbytery unwise, but this was approved in so far as it declared that the action was irregular and unconstitutional. This report was called at 2 p. m. for discussion and an hour's excited debate followed, as to limiting speeches, etc. The assembly during this time much resembled a political convention. Finally an allotment was agreed upon and speeches were made pro and con. were invariably the aggressors.

LONDON, May 21.—The Post's Berlin correspondent says the Samoa protocol in its final form will contain two chief points. The first of these relates to the government of Samoa, which will be arranged on a tripartite basis, England being accorded a position corresponding in a certain sense to that of arbitrator. The second deals with the appointment of a land commission. England is to have a large influence in the selection of the supreme judicial functionary.
